

Atomic Kitten, Always Be My Baby

Out of sight, out of mind. That's what they all say
but I learned that aint the truth with me and you babe
time cant change a good thing
lovin you is something I still feel
you'll always be my...baby

Chorus

remember we were lovin' every single night
you gave me all the love I needed to survive
and each and every day I'd only dream of you
and every single thing we would do
remember all the plans that we made
all the things we went through
just one thing remains
you'll always be my baby

Life's too short, don't look back, that's what they all say,
cos you dont know what you've got, no, until it's gone babe.
same mistakes, we make again,
needing you is something I'll always feel
you'll always be my...baby

Chorus These days I find myself remembering what we had
each time I walk away, I just keep turning back
and every night and every day
the love we had, the love we made
and I wonder if it's true
am I still your baby too

Oohh, ooohhh
Oohh, ooohhh

Chorus X2
