

Atomic Kitten, Don't Miss This Moment

Don't miss this moment
Life tastes sweet
We can work wonders
Just let it be
I know what your thinking
So can you feel
What I need don't need to be said
I'm gonna live right now

CHORUS

My love won't wait if you going to wait till tomorrow
Baby I'm yours and that feels right today
My love won't wait if your going to wait till tomorrow
This is not a dream it's right before eyes don't let it fade away

You'll miss this moment
Don't be afraid
If thats what you wanted
So why hesitate
Cause I feeling restless
I can't explain
What I need dont need to be said
I'm gonna live right now

repeat chorus 3 times
