

Atomic Kitten, For Once In My Life

I keep waiting for our love to be just how it used to be (woah)
And I keep praying that I see your smile although it's been a while (woah)
Tell me the reason that you're stalking me without good respect
Too little baby, much too late ain't gonna be my big mistake

Chorus

For once in my life
Want to do what's right for me
For once in my life
Got to see what I believe
For once in my life
Not gonna take it anymore
For once in my life
You got to deal with the feel that I'm ready for a new day at dawn

Someday soon I know I'll find someone who'll help me see the sun (woah)
Somehow I ain't gonna feel alone it's time for moving on (woah)
Show me the reason why you're stalking me without good respect (I wanna know babe)
Too little baby, much too late ain't gonna be my big mistake (yeah)

Chorus

I keep waiting for our love to be just how it used to be (woah)
I keep praying that I see your smile although it's been a while (woah)
Tell me the reason that you're stalking me without good respect (I wanna know babe)
Too little baby, much too late ain't gonna be my big mistake

Chorus until fade
