

Atomic Opera, FreakShow

Don't fill me with hope
If you just take it away
Don't fill me with words
When you have nothing to say
Don't promise tonight
If you are leaving today
Give it up cause you don't want to know what I know (now)
Right and wrong
Black and white
Well here comes
The freakshow
Don't help me relax if you are sending the dogs
Don't tell me you care if your just selling your god
Don't promise me life if you are walking the dead
Go away cause you don't want to see what I believe now
Who are you
To make me right in the wrong
To make me weak in the strong
To make me question it all
Who are you
To make me lay on the ground
To make me suck on a frown
To make me see how I fall
Well I see it all
