Atoms For Peace, Judge Jury and Executioner

Don?t worry, baby
It goes right through me
I?m like the wind and my anger will disperse
Thin persecutors
Your twisted whispers
A horned reptile that is crawled upon the earth

I went for my usual walk Just tell it like it is Tell it like it was Judge and jury, executioner Judge and jury, executioner Judge and jury When darkness follows No tomorrows

It?s all been decided
All spies deceptive
All bouncing voices down the echo chamber

Don?t worry, baby It goes right through me

I went for my usual walk I went around the block I just can?t talk or reason with my executioner Judge and jury, executioner Judge and jury

Been wasting trails You talk in layers

I went for my usual walk Don?t worry, laugh about Just can?t talk or reason with my executioner Judge and jury, executioner Judge and jury

Don?t worry, baby It goes right through me I?m like the wind and my anger will disperse
