Atozzio, Every Piece Of My Heart

Can't put my finger on it
How you got a pull on me
I never thought I would find, the love that makes me weak
Something bout the swagger, I don't know
Cause I never felt like this before
I used to hate hearing love songs, now that's all I sing
Feels like you know me, I want to know you too
Let me come closer
Show you what I can do
I'll give my heart too, and every part of me
The way I'm feeling, is taking over me
I'm a give you every bit of my love
Every part every piece of my love
I'm a give you every bit of my love
You could have it, how you want it
I'm a give you every bit of my love
I'll do anything you could think of
I'm a give you every bit of my love
You could have it, how ever you want it
I usually don't act like this
My friends say I'm movin too quick
But they don't understand what you do to my body
And your so sick (no)
And when you're not around I'm gone
I'm luvin what it is I'm on
Don't think comin off strong
But I know what I want
Feels like you know me, I want to know you too
Let me come closer
Show you what I can do
I'll give my heart too, and every part of me
The way I'm feeling, is taking over me
I'm a give you every bit of my love
Every part every piece of my love
I'm a give you every bit of my love
You could have it, how you want it
I'm a give you every bit of my love
I'll do anything you could think of
I'm a give you every bit of my love
You could have it, how ever you want it
You can take controll of me
Do whatever you want, whatever you like
It really don't matter cause I'm just for you tonite
I just want you to take the lead
I'm a fall back, and I'm letting go
Do whatever you want, I'm just letting you know
I'm a give you every bit of my love
Every part every piece of my love
I'm a give you every bit of my love
You could have it, how you want it
I'm a give you every bit of my love
I'll do anything you could think of
I'm a give you every bit of my love
You could have it, how ever you want it
Oh how you want it
Took forever ughh
