## Atreyu, Living Each Day Like You're Al

Raise up the ghosts of the dead I won't die like them Push past the point of raw emotion I will breathe Exist with a broken spirit I will die complete Ignore what the angels say Enjoy that special place where the demons speak to me I won't pick out the lining of my coffin yet Unless I am sure this color satin is me Better yet go with crushed velvet That way I'll be damn sure to enjoy eternity My daily life writes the eulogy Engraved on tombstone diaries Laid to rest by the passing of time Seems to me that even love can die

And the rituals, that fade away
And the roses that cease to be laid
And to me it clearly appears that
We're already one foot in a very shallow grave
I will love with passion
You live like you're dead
I will love with passion
You live like you're dead
I will love with passion
As each day dies
Are we living on to the next or passing on in the twilight?
As each day dies
Are we living on to the next or passing on in the twilight?
As each day dies
Are we living on to the next or passing on in the twilight?
As each day dies
Are we living on to the next or passing on in the twilight?
