

Atrixo, Audacious

With your Medusa like quaff
your pretty black lipstick
your existential platitude
spewing from your lips
- can't understand the next 2 lines
cuz you do your sexy hoo-ha dance
in front of the band

chorus:
shake your little butt
you're making me breathless
I wanna take you home
you're so audicious
everything about you is so delicious
I wanna be alone with you
you little audicious ****

you got your died black hair
and your something makeup
petite vintage lust queen
please come home with me
handcuffs on your beltloops
dangling from your hips
you give me the impression
you'll be my new obsession

chorus.....
