

Atrocity, Life Is A Long And Silent River

Ten more summers pleased the land
Ten more winters numbed the landscape
Time is running quickly
But in my brain a terrible dream never ends
I try to escape from my past
I'm damned to suffer a whole life!
Life is a long and silent river
She grows up - shy alone and sad
Other kids - kept away from her
Her mother - was divorced long ago
No more love - only alcohol
Life is a long and silent river
No real friends - for the little girl
Nobody understands - what's wrong with her
Her classmates - cheat her all the time
The silent girl - is discriminated against
Life is a long and silent river
People are shouting at me
"You stupid girl!"
How strange you are - never spoke!"
I try to escape from my past
I'm damned to suffer a whole life
