

# Atrox, Headrush Helmet

I got my headrush helmet on  
I'm in a state of euphoria  
I watch my display  
I feel safe  
I see pixels, that's all  
I'm in a state of the art box above you  
Nothing can harm me  
Steady formation  
Stay on target  
We dive out of the sun  
Steady formation  
Follow the leader  
Release your cargo now  
There's nothing human in here  
Just technology in air  
Me - The bomb bomb dropper  
Can't see no targets ahead  
Know there's a city below  
Me - The bomb bomb dropper  
God damn I am in my wicked machine  
And I like it  
The bomb bomb dropper  
Wish I could stay up here for a while  
I'm controlling  
The bomb bomb dropper  
I flick the switches  
I press the button  
i know my timing is right  
Release your cargo now  
I receive my orders  
From the ones with the binoculars  
They can see it all
