

Attic Lights, God

Outside, it's windy and stormy weather,
Don't cry, you've already cried a river,
Feel like, Maybe I'm feeling bitter,
Fall down, now all I can do is shiver,

CHORUS A

God, I'll be a better man,
Never let her down try and understand,
God, I'll be a better guy,
Always been a fool for all the fools going by,
So long, I have to get my jacket
This queue, feels like I'm caught in traffic,
The doubt starts to hit me like rain,
I'll never see her again,

CHORUS B

God, why did you let me down
Standing all alone in the centre of town
God, you just let me drown,
Making me feel hopeful when there's no-one around

SOLO

CHORUS A

God, I'll be a better man,
Never let her down try and understand
God, I'll be a better guy
Always been a fool for all the fools going by,
Fools going by....

MIDDLE 8

I waited outside for her, she never waited for me
Waited outside for her, she never waited for me
Waited outside for her, she never waited for me
Waited outside for her, she never waited for me
Waited outside for her, she never waited for me
Waited outside for her, she never waited for me
She never waited for me
She never waited for me
She never waited

Outside, It's windy and stormy weather,
Don't cry, you've already cried a river
Walk past, all of the drunken steamers,
Like me, broken and tired dreamers,

CHORUS B

God, why did you let me down
Standing all alone in the centre of town
God, you just let me drown,
Making me feel hopeful when there's no-one around
No-one around...
