

# Attila, Cheyenne 420

Yeahhhhh

Why you standin there, whatchu starin at?

Yeahh we kicked it into overdrive and im glad you came along for the ride

Sit in tight, watch out for ice

These roads are dangerous tonight

Danger

Stranded with nowhere to go, lets get wasted

Throw all your change on the floor

This is a chance to lose control and forget all about this mess that weve been stuck in for so long

We will prevail, and party to pass all this unwanted time

Lets get, GET WASTED

More alcohol than anyone could drink in a single night

We can tear the place apart but please dont get in a fight!

Here we go, get on the floor, get some

Dont stop the flow, get up

And then we realized

We got to get out of this state

I cant imagine another day of entrapment

Stranded in the ice, we gotta give this a try

Sliding off the road, and we got hit by a truck!
