

Audience Of One, This Night Has Opened My Eyes

Calm down, none of this is real
Take it for granted
Feel like home?
Calm down, none of this is real
Take it for granted
Feel like home?

And I will never sleep again
And I will never sleep again

Calm down, none of this is real
Take it for granted
Feel like home?
Calm down, none of this is real
Take it for granted
Feel like home?

And I will never sleep again
And I will never sleep again

And I will never sleep again
And I will never sleep again, oh

And I will never sleep again
And I will never sleep again

And I will never sleep again
And I will never sleep again
