

Audio Adrenaline, One Like You

All I have
Has come from love
I am blessed to be
Someone loved
Something good has got a hold of me

You forget
That I fall apart sometimes,
I cave in I remember it well
But You never bring it back again

(chorus)

So I sing
Sing a song from this mountaintop I'm on
See it clear,
See it true
There could never be another One like You

Friends I have
Will they be here when I'm old and gray
Troubles come
Can I be sure they will fade away
All I do
Lord I want to be there next to You
Past the bullets and bears you have picked me up and dragged me through

(chorus)

chorus 3x
