

Audio Karate, Who Brings A Knife To A Gun Fight

don't look don't look so horrified
i preserve with formaldehyde
nobody likes their body cold
i doll up and my bodies sold
can't say i like this from the scent
c'mon and let it go

aim well just lay awake
i'm at a lions place backwards pace!
your life's a life worth doing right?

no life's a life worth doing right
no life's a life worth doing right
your life's all right, all right!
no lifes all right all right
no lifes all right, all right!
