

# Audioslave, Number 1 Zero

Listen now and let me speak  
I will be the dog at your feet  
Come along when you call  
Be the little bird in your straw and sing you a song  
I'll be there to take the fall  
Though you tread upon me for no reason at all

(Chorus)  
But just when you think you've left me blind  
Well I'll need to, Yeah I will keep you in the corner of my eye  
The corner of my eye

I will never leave your side  
Though you call me your number one zero  
you nevermind  
I'll be your king, I'll be your pawn  
I will build a pedestal and put you upon it, baby

(Chorus)  
Just when you think you've left me blind  
I will be creeping right up behind  
Cause maybe if I need to  
I will keep you in the corner of my eye  
Yeah

Down on the street, over your night  
Out of your sleep, out of your sight  
if I need to, yeah if I need to  
Out of your mouth, in every word  
Down in your ego one thing is sure  
I will keep you, I will keep you

(Chorus)  
Oh just when you think you've left me blind  
I will be creeping right up behind  
Cause baby if I need to  
Lord, I will keep you in the corner of my eye  
Corner of my eye  
I will be the bird in your straw  
But you won't get far  
I will keep you in the corner of my eye
