

Audiovent, Looking Down (Album Version)

Im looking down, down
Im looking down, down
Im looking down

The shadows touch the top of the trees
Who we are we never know
Maybe we were meant for something better
Than what we could see
Could see, could we be the past

Well stand on top of the world
Looking down
Well stand on top of the world
Looking down

Falling into one more dream
That will only bring you down
It seems as though the shadows know
Just what well become
Become, could we be the past

Well stand on top of the world
Looking down
Well stand on top of the world
Looking down

Well stand on top of the world
Looking down
Well stand on top of the
World!

Well stand on top of the world
Looking down
Well stand on top of the world
Looking down
