

Audioweb, Same Song

There's a problem
Many words have been said
But the wrong direction
Those things inside your head
Taken now in context
These things will multiply
..... my life a wreck
I'm too tired to even try

Chorus:
I just wanna sing the same song (x3)
This one's for you

The world is spinning
In around my brain
It's my time for leaving
Kinda ignore this pain
One day you'll hear me
And come to understand
That life was always in me
Our page was always planned, oh planned

Chorus
