

Audrey, Black Hearts

I guess you knew
Where it all had to end
To bring it all up

I guess you knew
Where it all had to end
To bring it all up again

And your heart beats faster
As I lay my head
You no longer lie
But your eyes still smiling

Ohhh
Ohhh

See what you've created
What have I become
See what you've created
What have I become

I guess you knew
Where it all had to end
To bring it all up

I guess you knew
Where it all had to end
To bring it all up

It's all
It's all
That you gave
I'm after all

It's all
It's all
That you gave
I'm after all

It's all
It's all
That you gave

It's all
It's all
That you gave
I'm after all
