

Audrey Hannah, Liquid Touch (Guy Called Gerald)

I'm thinking of your liquid touch
A little love, just can't get enough (2x)

Day and night I'm hypnotized
The temperature starts to rise
And I can feel the heat
And I can't bear to speak
Now I'm overcome
Let's take it one to one
Slipping to the groove somehow
Because I want it now
I've got to have it now

Refrain:
Talk to me what are you thinking of?
I can't breath I need your liquid touch
Can't you see I want a little love
Talk to me I just can't get enough
Over and over release me and baby talk to me
Uncover, discover and baby talk to me

I'm thinking of your liquid touch
A little love, just can't get enough (2x)

Slow and cool a liquid smooth
Come on with my appetite
Feed me through the night
Now the time is right
