

# August Premier, To The Top

there's only one thing in this world worth living for  
there's only one thought in my head i won't ignore  
it's only raining over me this time  
climbing up just to cover our mistakes  
so we'll take this to the top now baby

by now i think you'd realize  
cause everybody knows  
cause everybody knows  
by now i think you'd realize  
we've come too far to let this go  
and now we're ready for the show

there's only one place i can go to take my time  
there's only one way we can all make up our minds  
it's only raining over me this time  
climbing up just to cover our mistakes  
we're gonna take this to the top now baby

by now i think you'd realize  
cause everybody knows  
cause everybody knows  
by now i think you'd realize  
we've come too far to let this go  
and now we're ready for the show  
now we're ready for the show  
now we're ready for the show  
now we're ready for the show

we'll take this to the top now baby... yeah

by now i think you'd realize  
cause everybody knows  
cause everybody knows  
by now i think you'd realize  
we've come too far to let this go  
and now we're ready for the show
