

# Augustana, Found My Place

Watch my back, no one will  
Water falls, fire kills  
And all my life, all my life  
I've been waiting to find my place  
Find my place  
Found my place  
Found my place  
Sink or swim, take me in  
hold my hand, running through the sand  
All this time, all this time  
Finally found my place  
Found my place  
Found my place  
Found my place  
And all this time, all this time  
Only, to find my place  
Found my place  
Found my place
