

Aura, No More Fears

(Aaron Nordquist, Ozzy Osbourne, Geezer Butler, Toni Iommi, Bill Ward)

When I first saw you I didn't realize
And now I think I love you baby was I surprised
People say my love just cannot be true
They don't believe that everyday my love grew and grew
But now I have the courage to tell you
just how much I love you

Chorus

No more fears
It's taken me all these years
You're the first to have this love of mine
Forever with me till the end of time

You introduced me to my mind
And left me wanting me wanting you and your kind
Now you have me under your power
My love grows stronger now with every hour
No more fears
It's taken me all these years
You're the first to have this love of mine
Forever with me till the end of time
Follow me now and you will not regret
Leaving the life you led before we met
My life was empty forever on a down
Until you came and showed me around
Look into my eyes I'll tell you who I am
My name is lover please take my hand
My life is free now my life is clear
I love you baby and I wish you were here
I've got no more fears
We'll be together forever and years
No more fears
It's taken me all these years
You're the first to have this love of mine
Forever with me till the end of time
