

Aurora, Slow Down

You tell what I do what I need But I feel the brain is trapped And I'm insane?

Hey woman slow down Hey woman slow down

As you don't need to set The control of the heart Of me anymore

Hey woman slow down Hey woman slow down

As I'm the one to reign In my kingdom of slain As I'm the capture of fire That burns with darkest desire

So don't tell me what to do As I'm the master, I'm the blaster And don't tell you love me to As I'm dying

Hey woman slow down Hey woman slow down

So don't take my friends Away from me
