

Aurora, The Day It Rained Forever

I've no regrets,
time to forget
If your lookin' for some kind of a soul remedy,
take control of it
Its back again,
deep in my head
But somethin' tells me to make my move,
save my energy

(Bridge)
Is it really hurt,
that I feel
or is it just the thought of you that's killin' me?
I don't wanna break it
and watch it melt away

(Chorus)
When I wake I feel the sun inside,
I know I'll be alright,
On the day it rained forever

All around the walls are breaking down
Nothing makes a sound,
On the day it rained forever
(Rained forever)

We're angels
watchin' the world,
But you can't stop the feeling
that nothing's real
It's a dream
So break free,
got to survive
A new day is dawning,
just wait for a morning star

(Bridge)
Is it really hurt,
that I feel
or is it just the thought of you that's killin' me?
I don't wanna break it
and watch it melt away

(Chorus)
When I wake I feel the sun inside,
I know I'll be alright,
On the day it rained forever

All around the walls are breaking down
Nothing makes a sound,
On the day it rained forever
