

Aus Rotten, Factory

Strapped piece of meat to a chair
Strapped piece of meat to a cross
We play god to determine your future
We play god for the sake of all
Inject the meat with a venom
Inject the meat with a hormone
We stand upright to control those who don't
We stand upright to control all
We are the superior species
With a god-given right to think
This is what separates we from the animals
This is what separates us from them
