Austin Mahone, All I Ever Need

Don't the water grow the trees
Don't the moon pull the tide
Don't the stars light the sky
Like you need to light my life
If you need me anytime
You know I'm always right by your side
See I've never felt this love
You're the only thing that's on my mind

You don't understand how much you really mean to me
I need you with my life
You're my necessity
But believe me you're everything
That just makes my world complete
My love is clear the only thing that all I've ever see

You're all I ever need
Baby you're amazing
You're my angel come and save me
You're all I ever need
Baby you're amazing
You're my angel come and save me

Don't the water grow the trees
Don't the moon pull the tide
Don't the stars light the sky
Like you need to light my life

We can do anything you like
I know, we both can get it right tonight
You got your walls built up so high
I can tell by looking in your eyes

You don't understand how much you really mean to me
I need you with my life
You're my necessity
But believe me you're everything
That just makes my world complete
My love is clear the only thing that all I've ever see

You're all I ever need
Baby you're amazing
You're my angel come and save me
You're all I ever need
Baby you're amazing
You're my angel come and save me

When it comes to you
Baby I'm addicted
You're like a drug, no rehab can fix it
I think you're perfect baby, even with your flaws
You ask what I like about you
I love it all
/2x

You're all I ever need
Baby you're amazing
You're my angel come and save me
You're all I ever need
Baby you're amazing
You're my angel come and save me
