Australian Crawl, You Told Me

You told me that you'd never leave me You came and opened up my eyes Well you told me that you'd never Be leavin this ol' boy I've said enough of those silly goodbyes

You told me that you love me (never mind you know) It's not forever I know You told me you'd stay with me baby It's not forever I know

You gave me good reason You gave me reason to smile Well you took that good reason And broke it into pieces Now I've got to be alone for a while

Don't matter just what you think about it You never bother to call Don't matter that I can't live without it Don't matter at all
