

# Autamata, Crazy

I stood still waiting

For a glimpse of you It's been so long  
Grey sky overhead  
Should have realized  
That everything changes

Crazy, you know you're driving me insane  
Crazy, you're driving me mad, don't ya, don't ya  
Crazy, you know you get inside my brain  
You drive me crazy  
You're driving me mad  
Don't ya, don't ya

We play silly games  
Round and round circles  
No winners here  
You can't bear to look at me  
And I can't hear you  
But your silence is deafening me]
