

Autamata, Great For Us

So much for loving, so much for fate
I've got a feeling, I'm not going to waste
Your perfect style, your cheeky smile
I got to tell you

That it could be great for us
Ya we could be great for us
Ya we could be great for us

I hardly know you, but it feels right
I've got a notion you're my true messiah
The ease of being with you around me
Some day I'll tell you

That it could be great for us
Ya we could be great for us
Ya we will be great for us

I know you know this, it's in your kiss
I got a feeling, I can't forget
So close your brown eyes, lay down beside me
I got to tell you

That we will be great for us
Ya we were made for us
That we would be great for us
Ya we were made for us
And it will be great for us
