

Authority Zero, Revolution

Look at the blueprints as they disappear
Cause of the blank space filled with all our fears
To make a move could be devastation
To take a chance is a way to face them
Make it a choice to take a different road

You wanna revolution? (YEAH)
You gotta make a difference on your own
Wanna revolution?(YEAH)
Stand up
Stand out and make it known[2x]

A new state renovation
A new day brings you to the nation
These days another way to replay
No replay
I think I'm better this way
Times up and can I say thats ok
Too late
I shoulda coulda maybe
Why wait
But in the end it could be my last big mistake

You want a revolution?(YEAH)
You gotta make a difference on your own
Wanna revolution?(YEAH)
Stand up
Stand out and make it known[2x]

Face first
New days
Choices
We Made

Face first
New days
The choices we made!

Face first
Our ability to choose I make a change
Insteda saying that its just fine
Time to open up and time to realize
You can make a differnce if you try

You want a revolution?(YEAH)
You gotta make a difference on your own
Wanna revolution?(YEAH)
Stand up
Stand out and make it known
