

# Automagic, I'll Be Here

When you look at me with that lost love in your eyes  
and you talk to me with that voice you can't disguise  
When you walk away  
and you're gone all day  
and you come home late with no thing to say  
there's one thing I think you should know

I'll be here  
when you walk away  
I'll be here  
when you going to stay  
I'll be here  
if it's all the same  
I'll be here  
forget my name  
I'll be here  
I'll be here

When you wonder if this thing we have will last  
and you tell me that your love is fading fast  
you can have your doubts, that's what love's about  
you can take your time to make up your mind  
there's one thing I think you should know by now

I'll be here  
if you shut the door  
I'll be here  
don't love me no more  
I'll be here  
if you don't feel love  
I'll be here  
if it's not enough  
I'll be here  
I'll be here
