Automatic Black, Crash And Burn

I didn't mean to piss you off
I didn't mean you're ordinary
You never fell for me the way I fell for you but that's okay
You were the one didn't think about the pain you cause when you throw me out
I won't lie cause lyin's a shame
Remember when you felt the same?

I know why we always crash and burn
I am afraid that I will never learn
when you say, you say I'm special
Now I know why we never try
Should've known better than to lie to a stupid girl, stupid girl

I didn't mean to curse you out
I didn't mean to be so cruel
You are no one to talk about nothin' now, well nothin's cool
You are the one to think about the pain you cause when you throw me out
I won't cry and I won't blame
remember when you felt the same?

I know why we always crash and burn
I am afraid that I will never learn
when you say, you say I'm special
I know why we never try
Should've known better than to lie to a stupid, stupid girl

I'm not goin' back again
caught you this time
caught you this time
I'm not goin' back again
caught you this time around
I'm not goin' back again
caught you this time
caught you this time
I'm not goin' back again
back again

I didn't mean to piss you off
I didn't mean you're ordinary
I didn't mean to curse you out
I didn't mean to be so cruel

I didn't mean to piss you off
I didn't mean to be so cruel
I didn't mean to curse you out
I didn't mean to be so cruel
You say
Now all we have is crash and burn
I am afraid that I will never learn
when you say, you say I'm special
Now I know why we never try
Should've known better than to lie
to a stupid girl, stupid girl

I'm not goin' back again
caught you this time around
caught you this time around
I'm not goin' back again (repeat)
