Automatic Loveletter, Let It Ride

Lay on the floor
Breathe it in deep
Don't speak, don't say a word
Just savoring
You're all that I have
And all to hold on to
You can't lead me on
Come on, come on
Can't you feel it
And start chasing dreams
And don't let it go (?)
And take me away
Let's get out of this town
Run, baby, run
We're unstoppable now
On top of the world
Sing it out loud
And mean it and keep believing
We've got the rest of our lives
So let it ride
The time of our lives
Let it ride
Running away
Don't tell anyone
We'll be the talk of the town
We'll be the envy of everyone
Dances to mixtapes and car tops
So don't, don't, don't let this go
And take me away
Let's get out of this town
Run, baby, run
We're unstoppable now
On top of the world
Sing it out loud
And mean it and keep believing
We've got the rest of our lives
So let it ride
The time of our lives
Let it ride
Coming on strong and never before
I swear if you leave this end of the world (?)
So don't walk away
Just take my hand
I'm calling you out
Now I've shown you my heart
So take it away
And take me away
Let's get out of this town
Run, baby, run
We're unstoppable now
On top of the world
Sing it out loud
And mean it and keep believing
We've got the rest of our lives
So let it ride
The time of our lives
Let it ride
