

Autonomadic, Cobra Commander

Mom says, "Honey, it's bed-time
Put away Optimus Prime
The Autobots can hold on
Against the Decepticons
And Dr. Mindbender can wait
To battle with Lady Jaye
She'll have an easier time
Helped by Duke, Flint, and Snake Eyes."

I just want to fall asleep under Hot Wheels covers
I don't want to wake without my Ninja Turtles

We'll hang with Miles and with Matt
While we try to get their masks back
And just like Lion-O
We've got lots of room to grow

I just want to run away to Castle Grayskull --
Hide with Teela under chairs, sheets, and pillows

Cops and robbers in the tree fort
Looking down on the girl from next door
We all said you had cooties --
But you had the same dirt on your knees
Building castles with Legos
Then feasting on blue Play-Doh
Your Rainbow Brite smile drove me
To be Bo to your Daisy
