Autopilot Off, I'm Thinking

Im thinking bout the times we knew it all
And how we used to feel invincible
We ran so fast we never thought wed fall
Im thinking bout the times we knew it all

It never got too late
We stayed up til the early morning
We swore wed stay the same
Wed never let ourselves get boring

Im thinking bout the times we knew it all
And how we used to feel invincible

Tuff bill to swallow down
Theres nothing that could prepare me
And so look on forever now
Ive never felt more temporary

Im thinking bout the times we knew it all
And how we used to feel invincible

We ran so fast we never thought wed fall
Im thinking bout the times we knew it all
