

# Autumn Clan, The Lack of Inventive Genius

I don't believe in love  
and you are the reason  
I'm alone to resign  
love's only a season

What doesn't kill me, makes me stronger  
you're not the woman, to invent love with

Life is the search for the truth  
will love be the answer?  
The womens' heart is the sea  
and I am the cancer

Some words should remain unspoken  
once used they do more harm than good
