

# Autumn, One Word Reminder

[Bonus track]

It's on my lips, right there,  
on the tip of my tongue  
Struck deaf to wiser words  
but one word from you  
one word will do

Just fine

Just fine

Just speak and I will be just fine

Just fine

One word and I will be just fine

Your words move and mend

make me mind myself

a little more, maybe

We're as right as we are wrong

and I understand

Just fine

Just fine

Just speak and I will be just fine

Just fine

One word and I will be just fine

Focus on your pause between words for a change

Shed light on breaths taken between phrases

before the changes take effect

Watched pity from our balcony

Washed envy down with wine

Talkative, so far from sober

-bless the wine-

I, we feel fine

Just fine

Just speak and we will be just fine

Just fine

One word and we will be just fine

This is all you mean to me

This is all you matter

Remind me to mind myself

just that little more
