

Ava Max, Dancing's Done

I see the panic somewhere in your eyes
Yeah, in your eyes
I wanna tell what's brought us here tonight
Yeah, back to life

If you're gonna leave me hanging
Then you're gonna leave me dead
Oh, I'm never going home
If you're not there

I wanna give into your dark temptation
I wanna touch you like nobody does
People like you and me were born to run
So where we going when the dancing's done?
I wanna give into your dark temptation
I wanna touch you like nobody does
People like you and me were born to run
So where we going when the dancing's done?

I wanna taste the secrets that you hide
And make them mine
Come take me to the edge of afterlife
And take your time

If you're gonna leave me hanging
Then you're gonna leave me dead
Oh, I'm never going home
If you're not there

I wanna give into your dark temptation
I wanna touch you like nobody does
People like you and me were born to run
So where we going when the dancing's done?
I wanna give into your dark temptation
I wanna touch you like nobody does
People like you and me were born to run
So where we going when the dancing's done?

The dancing's done
When the dancing's done
