

# Ava Max, One of Us

One of us would die for love  
One of us would give it up  
One of us would risk it all  
One of us won't even call  
One of us could say goodbye  
Never even bat an eye  
One of us is hurting you  
And baby that's the last thing that I wanna do  
Never, did the thought ever cross  
And never, did I think I would stop  
Forever, no one tells you the cost of paradise, paradise  
Kisses, but they cut like a knife  
I wish this was a little more bright  
Once sweet words, now they come with a bite  
Oh hungry eyes, hungry eyes  
I would give up the world but it won't save us  
It's killing me inside out because  
One of us would die for love  
One of us would give it up  
One of us would risk it all  
One of us won't even call  
One of us could say goodbye  
Never even bat an eye  
One of us is hurting you  
And baby that's the last thing that I wanna do  
Question, is this how it goes down  
In Heaven? Can someone let me out  
I'm begging 'cause I'm burning with doubt  
I'm burning, I'm burning, I'm burning  
I would give up the world but it won't save us  
It's killing me inside out because  
One of us would die for love (die for love)  
One of us would give it up (give it up)  
One of us would risk it all  
One of us won't even call (no, no, no)  
One of us could say goodbye (goodbye)  
Never even bat an eye  
One of us is hurting you  
And baby that's the last thing that I wanna do  
And baby that's the last thing that I wanna do
