

# Avalon, Make It Last Forever

Make It Last Forever

Can you feel it  
/ It's like a thunder  
/ Something moving like an echo  
through your heart  
/ Do you hear it  
/ A voice is calling out of nowhere  
through the noise to where you are  
/ You can't ignore it  
/ You're created for it

Do you wanna fly  
/ There's a higher higher  
/ Just this side of Heaven  
/ Brings you to your knees  
/ Brings you back to life  
/ You can make it last forever

It's like adrenaline  
/ Rushing through you  
/ It can make your heart beat jump right off the chart  
/ Like a fire  
/ It consumes you  
/ And in a second it can saturate the dark  
/ You're in the moment/ Before you even know it//

You can search the world forever  
/ But you'll never find love better  
/ No you'll never, ever, never  
/ Bigger than the universe//
