

Avalon, Undeniably You

Like finding a match when the lights go out
Like finding a raft when the ship's going down
That's how it was when You rescued my heart
You covered the dark with the light of Your love
It's so much more than anything I've felt before

Chorus:

It's unbelievable all the things that You do
It's unexplainable how Your love pulls me through
And I can't question the one thing I've found to be true
It's undeniably You

Like finding a shelter in pouring rain
Like finding your way when you're lost in a maze
That's how it was when You came in my life
I'll always be safe with You here by my side
It's so much more than anything I've felt before

Chorus:

It's unbelievable all the things that You do
It's unexplainable how Your love pulls me through
And I can't question the one thing I've found to be true
It's undeniably You

When You reached out to me
You gave me the strength to hold on again
Oh, You're everything, everything
It's all I need this love that You've given me

Chorus 2x

Unbelievably you!
