

Avant, Reaction

(feat. Sean Don)

[Sean Don]

Yo that type of reaction is
Out of the heavenly realms yo
Uh, yeah Sean Don, yeah Avant yeah
Now, yo, yo
Yo honey you're here with Sean Don
So let me let you know
Tonight we're having fun till it's all done
Move your body and on the dance floor
I'mma show you how you can work it out
But be careful
I know you've heard of me, call me python
Haters call me James Bond
Cause you know I stay strong
Lucky charm in and out and it's the same song
What you want can be only be one
Rock me and Avant

[Avant]

Fine as I can see
The only one I want in this party
So baby can we spend some time tonight
Bumpin' and grindin'
From the front babe and behind yea
You got me going outta my mind
So...

Don't stop what you do
I want to be with you
Right here baby
I want you yeah
Stay here, don't go
You're making me lose control
Show me can you do it this way

[1] - Can you do it like this babe?
Can you do it like that babe?
Can I get behind your back babe?
So I can see your reaction

[Repeat 1]

You got me going crazy
The way you move your body
Freaky girl can I go down, yeah, yeah
As I get behind you
Holding your hips
What I see got me licking my lips
I wanna take you home tonight, whoa yeah

Don't stop what you do
I want to be with you
Whoa, whoa yeah
I wanna be with you
Stay here, don't go
You're making me lose control
Right here baby is where I want you
So tell me...

[Repeat 1 (2x)]

[Sean Don]

Yo, yo, yo
The way you see the night going
Answer me I wanna know
So many things I gotta talk about
It's unbelievable
What's in it for me cause you're pretending to be
Honey come here as I'm beginning to stare
More money from there?
Pay the price, stay the night
What I like is a type that'll say my name right
Sean Don the python
Know my weapon, know exactly where I'm headed
Gonna take you high like heaven in room 0-0-7
Know what I mean?

[Avant]
Don't stop what you do
I want to be with you
Whoa, and I know that you want me to
Stay here, don't go
You're making me lose control
Whoa yeah, whoa oh, oh yea

[Repeat 1 till end]
