

# Avant, Right Place, Wrong Time

[Verse 1]

Everytime I see ur face,  
Everytime I look in ur eyes (makes me remember, I still remember)  
Takin that flight out west,  
Just down in LAX (it was december, the end of winter)  
Stopped at the shoppin malls, just for u I had to ball  
Givin u everything  
You showed me things that I never knew and I thank you

[Bridge]

Okay okay lemme clear my mind (lotta things goin on in my head)  
You know the truth, you can never be mine (still trip off of all tha things that you said)  
That you loved me and u need me (yes you do)  
I still believe it (but),  
I must be crazy  
God knows that I dont know what I should do  
But all that I can say

[Chorus]

Right place, wrong time  
Im sittin here stuck in the middle of a masquerade with u  
U cant be mine  
Ill have to chuck it up but it'll hurt me so much (whoa whoa whoa)  
Whoa whoa whoa (I really want u)  
Hey  
God knows that I dont know what I should do (tell me what should I do)  
Cuz im still in love with u

[Verse 2]

Travelin from here to there, only so much I can bare (I wanna see you, but I cant see u)  
Knowin this from the start, didnt really wanna break no hearts (but my emotions are still takin me o  
Girl when you used to call, constantly my phone was off and I knew this day would come  
You would go and find somebody new  
But I'm still in love with u

[Chorus]

Right place, wrong time  
Im sittin here stuck in the middle of a masquerade with u  
U cant be mine  
Ill have to chuck it up but it'll hurt me so much (whoa whoa whoa)  
Whoa whoa whoa (can sumbody help me)  
Hey  
God knows that I dont know what I should do (what should I do)  
Cuz im still in love with u

[Hook]

I loved the things that we did together, places we went together  
(all of the places that we went together baby)  
Girl I was down whatever  
When I had time off, we could get that all  
But u know I been werkin for certain and I know that hurts u  
Someone else is fillin my shoes but Im not mad at u  
Cuz I wasnt there, now he's takin my place, fillin my space, leavin me with nothin else to say

[Chorus]

Right place, wrong time (right place, wrong time)  
Im sittin here stuck in the middle of a masquerade with u  
U cant be mine (But I need you)  
Ill have to chuck it up but it'll hurt me so much (whoa whoa whoa)  
Whoa whoa whoa  
Hey (U know I cant live without u girl please dont leave me right now I need u in my life)
