

Avantasia, What Kind Of Love

[vocals by Amanda Somerville, Tobias Sammet and Michael Kiske]

[Amanda Somerville:]

A dream of a dwelling inside
Alone we come and alone we go
And who am I to know what I feel
Sympathy that's tearing me apart?
Attraction of the distance to a heart or affinity?

What if love will leave your heart an open sore
And I can't reveal what even I don't know
The love you feel you waste away on me
What kind of love would let us bleed away?
No kind of love would make us bleed away

[Tobias Sammet:]

If only you could be
The one to take a look inside
I feel so incomplete
A broken man in need of mother love
I'm suffering in silence
And no one wants to see
And only god is watching as a bleed
A star above my matching piece

[Amanda Somerville:]

Oh, this love will leave your heart an open sore
And I can't reveal what even I don't know
This love you feel you waste away on me
What kind of love would let us bleed away?
No kind of love would make us bleed away

[Tobias Sammet:]

Feel - that's all you gotta do
And it will heal you
Feel the pain to lead you home to peace of mind
Dwell inside
Feel - that's all you gotta do
And it will heal the wound
Feel - there will be a song for peace of mind
Dwell inside
