

# Avatar, Mists Of Evil (To Elysian)

Sadly, I depart  
To a land too profound  
To be discovered  
By mankind

Engendered out of images  
Fed by broken hope  
I fly... my wings carried  
By the breath of ages...

The decay of your love  
Was the key to my voyage  
To settle in your dreams...  
Forever

Encouraged by your fear  
For them who were wrong  
and were predestined  
To stay this way

Like a whirlwind  
You pass by  
Clothed in your mantle of innocence  
The passing of the fluxes  
Forever put down!

Undecieved, loathesome whore  
You take me to Innaya  
The paths are burning  
With the greenish fire of repressed sadness

Elysian  
Enveil me with your velvet eyes  
Elysian  
Forelorn goddess of the lie  
Elysian  
My broken heart will be erased  
Elysian  
Tenderly walk by... disgraced

Elysian  
Take My Grief... To the Gods  
Elysian  
The one I loved... Oh  
Desipience

Released...
