

Aveo, Neverhome

the call, you said goodbye
the dog that cried
its tears ran down the driveway hard

you've see the states,
be coming home
this rest stop drags
just want something
you bet they can't ignore

you were never safe at home
but just who is safe
is anyone?
it's never right for you

you were never safe at home
but just who is safe
is anyone?
it's never right for you

never been safe at home
you know they don't miss you

you've never been safe at home
you know they don't miss you

they've been waiting for far too long
the letters stop
you'll never hear from them again

you've seen the states,
be coming home
this rest stop drags
just want something you bet they can't ignore

you were never safe at home
but just who is safe
is anyone?
it's never right for you

you were never safe at home
but just who is safe
not anyone
heaven, neverhome

never been safe at home
'cause you know they don't miss you

never been safe at home
you know they don't miss you

never been safe here at home
no, they don't miss you
you'll always be safe
here, alone
no, they don't miss you
no, they don't miss you
you know they don't miss you
