Average White Band

Miscellaneous

School Boy Crush

Meet me in the playground at a quarter to four

Wait till everybody's gone

There must be so many things that we can explore

Maybe I can walk you home

If it starts to rain - we can take some shelter

I'd like to hold your little hand

My heart is spinning like a helter-skelter

We'll get to know each other if we can

Chorus

She said hey - wait a minute - hold on

She said hey - just a little bit - hold on

When ever I try to think of what it feels like to feel it

For the frst time, and was it really such a thrill

She said look, boy - but don't you touch

that ain't much - only a school boy crush

Got to keep this secret - can't take no chance

Don't want nobody else to know

There is nothing wrong with trying to start a romance

we should take it rather slow

If we play it cool - It'll be all right

Don't let the teacher see us talking

But after school we will be out of sight

Everybody gonna think we just gone walkin'

Repeat Chorus
