Avicii, Hold On Never Leave (Ft. Martin Garrix)

I thought my heart was gone After I lost it all Felt I was falling down Still I chose to be proud Until I hit the ground

You got me back on my feet again You said that lovers come and may go You said that time will pass But I'll stay your friend I'll help you up when you feel alone

I was lonely
But after all you told me I'd be okay
Cause Friends are worth a hole lot more then money
Hope that everyone has felt like me
Hold on never leave

I started looking back At all I used to have I never felt so low Where did everyone go When I need them most
