## Avion, Would You Notice

Follow you in the shadow of your stride I'd wait an hour just to see you smile Should I chane all the pain To reveal all I've contained? Would you feel the way I do?

[Chorus:]
But if I was on fire
Would you notice?
And would you feel desire
If I showed it?
Would you notice?

I could wait for perfect words or circumstances I listened in just to hear your name All your loveliness that shines Is the same as what's inside Would you feel the same way too?

## [Chorus]

Someday soon When it's me and you I won't be the stranger In your life

## [Chorus]

But if I was on fire
If I was on fire
If I burn with desire would you notice?
